Re: School Meals ([HB 2760](#)) and Breakfast after the Bell ([HB 2765](#)) – **Support**

The League of Women Voters of Oregon has studies and consensus Positions that say:

- The early years of a child's life are crucial in building the foundation for educational attainment and greatly impact success or failure in later life.
- The League supports policies, programs, and funding at all levels of the community and government that promote the well-being, encourage the full development, and ensure the safety of all children—this includes nutrition and food access for vulnerable children and families.

Students who eat breakfast at school are more likely to perform better, have better attendance, and graduate. [HB 2765](#) removes scheduling barriers to accessing school breakfast for students and aligns the timing of school breakfast with the start of the school day, especially in high-poverty schools.

One in three kids living in food insecure households doesn't qualify for school meals. Oregon has the opportunity with [HB 2760](#) to become the first state in the nation to offer healthy, tasty school meals to all children at no charge. Evidence presented elsewhere in this hearing will document that for the 340 schools in Oregon currently offering universal school meals, it creates conditions where students are more likely to succeed.. Students are more likely to eat breakfast and lunch at school when the stigma of free/reduced lunch is removed.

Thank you for the opportunity to discuss this legislation.
