Subject: Support SB 756 OR DEQ Funding award grant under ORS 454.779

Dear Senate Committee on Environment & Natural Resources,

I strongly support SB 756. Which appropriates moneys to Department of Environmental Quality to award grant under ORS 454.779 and cover administrative costs necessary to implement ORS 454.779.

The grants & loans for septic systems is critical to have a healthy ecosystem & helping land owners.

Thank you

Cyndi Karp
