

I am opposed to the rezoning proposed in SB 10. I moved to Portland because I loved this city and enjoy the residential nature of the various communities. Now that Portland is a popular city to move to the developers are trying to move people like me, that want to live in reasonable residential areas, out and crowd 8 dwelling units of formerly single family housing. Traffic, congestion and lack of on street parking will destroy the city for me.

Sincerely
Marcus Anderson
