

Dear Legislators, I am a 3rd generation farmer in Clackamas County. I would like to express my support for SB 218 allowing the OLCC to stop issuing new Marijuana licenses. There is a glut of Marijuana now and it is feeding the black market. In Clackamas County we passed ZDO-271 to limit 1 license per tract of land. There are huge "industrial" grow operations on our EFU farmland that is impacting the rural communities in many negative ways. Please support SB218 to put a halt on this industry.

Respectfully,  
Mark Struloeff
