

I urge you as legislators to vote against this Bill ! I believe there are multiple reasons why I oppose it and will name a few , this is not by any means a complete list of my concerns.

First and foremost , I don't believe these vaccines are thoroughly tested for safety !There are many individuals , children that are at higher risk for dangerous adverse medical side effects therefore parents should have the right to choose what is best for their children and make private decisions with their doctors as to what medical plan should be best for their children and consider the potential risks .

I also believe that Religious freedom concerning what goes into the bodies of our children should not be infringed upon by the Government! Again , I urge you to vote against !
