Subject: Mandatory vaccinations
Date: Wednesday, February 27, 2019 10:14:38 AM

I am emailing to express my outrage at the bill 3063 that would eliminate all non medical exemptions for vaccinations. Having the government say we have lost our right to determine what should and shouldn't be injected into our kids bodies is directly going against the freedom of religion. We have not entered into a police state and it scares me to witness this attempt at government over reach. We are still a free country, as far as I know.
