---

My name is Michael McGlone and I am opposed to HB3063. In this current climate of fear & 'reactionism' I believe this bills goes to far. The current system that we have for vaccines & exemptions is more than adequate. We recently had a concern about measles at our school parents were informed some chose to have their children vaccinated and others chose to keep their children quarantined for 21 days. I would like to see Oregon continue to lead the country with good ideas & not blindly follow bad ideas.
