

Co-chairs Dembrow and Power, and members of the Joint Committee on Carbon Reduction,

My name is Sanne Stienstra and I live in North Portland. I am writing in support of HB 2020, the Clean Energy Jobs bill, because climate change is an urgent and pressing need that Oregon can begin addressing in a meaningful way through this policy. Clean Energy Jobs should be passed because it will create jobs, it will create investments in rural and low income communities, and it's a proven strategy that is working in 10 other states. Climate change is not being addressed at the national level, so Oregon needs to step up to take action in order to protect our future, especially the most vulnerable communities that are already feeling the effects of climate change.

Thank you for doing what you can to support Clean Energy Jobs.

Regards,
Sanne Stienstra
Portland, OR
