BACKGROUND:

Oregon specifically lists individuals who are required to report abuse by law, called "mandatory reporters." In 2015, Senate Bill 622 included home care workers and personal support workers on the list of mandatory reporters. Other mandatory reporters include physicians, dentists, school employees, health care professionals, members of the clergy, attorneys, and child care providers. Senate Bill 415 adds school district board members and public charter school governing body members to the list.
