

*Hello Sen. Bentz. As you may remember, I live in Baker City. I enjoy seeing the coyotes left in eastern Oregon, and I appreciate their place in the ecosystem. Please support SB723-2.*

- These hunts, using every technological advantage by teams of killers, are about as unsporting as can be.
- They do not significantly reduce coyote numbers, but are simply an opportunity to kill for pleasure and a prize.
- They express deep contempt for wildlife and, more importantly in my opinion, an even deeper contempt for Oregonians with conservation values. They are meant to offend.
