Dear Mr. Mitch Greenlick,

Why do you think you can "force" us to be vaccinated under our own will????? Who is paying you big bucks to turn into California ways?????

I'm sure you have some little ones, a beautiful wife and close friends since ya'll been in kindergarten. What if the people closest to you didn't believe in "treating" illness with pills and MULTIPLE VACCINATIONS GROWING UP!!????? How would you look them in the eye, EVERYDAY, knowing, you forced it upon their lives and families..... ? Personally, I wouldn't be able to look myself in the mirror, knowing I caused this and didn't RESPECT our rights as an American.

Also, why now? Clearly someone is giving you an incentive to push this on our CLEAN STATE, in Hope's to get us sicker.

If you did your research on vaccinations and the harm it does, not only to our babies and toddlers, but the long term affects from these toxins that carry into adulthood.

Don't take our rights as an American away from us, Oregon is not the state you want to mess with about this topic.

(P.S. I love how you moved this bill up during a snow storm... all that shows is you are scared.)

Hope you make the right decision, for the people you stand for, not the people that pay you. <3
