Subject: Re: BILLS REGARDING MARIJUANA

Any opposition regarding Deschutes County's rules and regulations concerning marijuana growing and production need to REMAIN. it would be ludicrous to rescind regulations concerning an issue that is already out of control and that is changing the landscape of Central Oregon in a detrimental way.

Subject: BILLS REGARDING MARIJUANA

SB639 -We oppose SB639. We do not want marijuana to be sold at events and lounges and other community events. There are plenty of current problems with alcohol and other drugs and do not need to have even more added to the mix.

SB218 - We support the OLCC refusing marijuana production licenses. We have a glut of production in Oregon currently and they need to be able to regulate how many licenses are issued and cap them at a certain point.

SB365 We support local governments having the option of charging a production fee and oppose prohibition of that authority.
