Dear House Committee on Revenue,

Please support HB 2663 in your meeting on 3/4/19. This bill would be a great way to address Oregon's housing crisis by promoting internal conversions of single-family homes into duplexes, triplexes, and 4-plexes.

Internal conversion of single-family homes is one of the most cost-effective ways to increase Oregon's supply of desperately needed inexpensive housing. Removing unnecessary regulatory obstacles to internal conversions, and incentivizing those conversions with a tax break, could go a long way toward ensuring that people of lower and middle incomes have decent homes they can afford.

Best wishes,
