Date: Saturday, March 2, 2019 9:38:28 AM

Hello,

My name is Julie Harris and I live in Aurora, Oregon on the Willamette River. I enjoy the activity and fun that the Willamette River provides to me and to the community. The river is a public trust for all to use for their purposes. I believe this bill will lead to less boating access. The Marine Board, who already has authority to make rules and regulations, with the support of many community members have already invested a great deal of time ensuring the river is usable to all by making new regulations that help reduce wave concerns from boats including safety, protecting property, and marine habitat.

New laws are not needed and serve no purpose as the Marine Board has been very effective at performing all the tasks necessary to address concerns in a fair and trustworthy manner.

Thank you,
Julie Harris

Blessings to you,
Julie
