

I live in an area where vacation rentals have taken over many neighborhoods. I don't know who is staying in the houses around me, and the demands on our small communities resources is not mitigated by the lodging tax revenue collected.

Lack of affordable housing causes worker shortages for all the businesses in the area, and those who do stay are working multiple jobs to afford rent.

Cities and counties must have the ability to put restrictions in place that make sense for the communities WHERE WE LIVE!!

Please vote no. Investors do not have any interest except financial gain and ROI. Please don't allow special interests to make these decisions.

Thank you,  
Rebecca Bloch
