Subject: HB3063
Date: Thursday, February 28, 2019 10:17:07 AM

Greetings,

I am OPPOSED to HB3063.
I am asking you to OPPOSE HB 3063 as well.

I currently have 2 children in the Public School System and a 3rd that will join them soon. If HB3063 passes I will be more than happy to Home School my children. I do wish to take away income from the hardworking men and women in our community that are providing education and child care. I also do not wish to have my rights and the rights of my children imposed upon.

It is not the governments job or right to make medical decisions for people. Your oversight is not needed in these medical decisions. Families have a right to make their own medical decisions. Particularly when there is risk associated with the procedure.

Are you prepared to take the responsibility of medical and human rights violations if something goes wrong in this forced vaccination epidemic?

With that said, This isn't about being for or against vaccines; it really is about medical choice and human rights as it will impact many in our community.

Please vote NO on this bill!

Regards,
A Voting Constituent,
Mendy DeLong
