Subject: Protect education rights in Oregon, vote NO on HB 3063
Date: Thursday, February 28, 2019 11:35:10 AM

To whom it may concern,

Medical Freedom is essential in this country! I believe HB 3063 unacceptably infringes on the rights of parents to make informed medical decisions for their children. Additionally-this bill only targets children. Denying children of an education does not increase vaccination rates or make us safer.

Please vote NO on HB 3063.

Sincerely,
Sarah Rucker
