

My name is Michael g Bauman I am a small landscape company in southern Oregon and have been in business for about 8 years. This bill will raise all thew costs on my business and doing business. I can not afford this bill.

Please do not pass this bill it may put me out of business. All the people doing yard care and landscaping that are not paying taxis and do not have a licensed business will be able to way under cut my charges.

My business depends on you as my three employees do also.

thank you,

michael g bauman
