

To whom it may concern,

I do NOT support the vaccine bill that has been purposed!

I have a few questions for you to think on. What will you do with all the people who refuse to vaccinate if this passes? How do you plan to segregate these people? Are you going to allow vaccinated and un-vaccinated people live in the same neighborhoods? Will the un-vaccinated have to use different stores? How will you ensure the un-vaccinated don't go to the vaccinated only stores? Will you build separate libraries, pools, schools, clubs, doctor offices, or even hospitals? Will you post security at every entrance un-vaccinated aren't allowed in?

That's just the kids. What about all the adults? Will the un-vaccinated be fired from their jobs? What about buses, trains, planes, and other means of transportation?

I don't think you have fully thought through the ramifications of this bill. I ask you to please think about ALL aspects of this bill. It is wrong!
