

My name is David Antone Jr and I am a current resident of Portland, Oregon. I am writing to express that I strongly oppose bill HB3063. I planned to attend the public hearing yesterday but was unable because of weather conditions. I am not in opposition of vaccinations, but I am in opposition of a mandate on any medical procedure. I believe this is an unconstitutional bill and that medical decisions should be made with a physician (or several) on a case-by-case basis. Thank you for considering my strong opposition.
