Opposition to Bill 3063

I am writing to you to oppose Bill 3063.

Every child has the right to receive an education irrespective of his/her race, color, religion, financial status, sexual orientation AND health decisions.

Denying a child the right to receive schooling based on government-mandated vaccination protocol is discriminatory and detrimental to the fabric of our society.

This bill will also impact all citizens, requiring an absolution of personal, medical and familial responsibility and choice.

Thank you for hearing my voice and honoring the people's perspective.

Kindly,

Sharon
