

I'm writing because this insanity has got to stop! Legislators need to quit protecting drug dealers and start protecting our children, the future of our country. Legislators need to quit hiding behind political correctness and stop protecting doctors who have turned lazy and greedy and have opted to prescribe and receive kickbacks instead of treat. Legislators need to show they care about the health and well being of all Oregonian's through action instead of meaningless words and promises. Legislators need to take a stand and stand together for the rights of those victims who have been taken from us and those struggling to stay with us. Many of you have children and grandchildren. I implore you to take a stand to stop this insanity before it affects, if it hasn't already, those you love.

Don't let those who have been murdered through the use of illegal drugs or over prescribed medication be a death in vain. Give their life meaning by doing what's right and pass Taylor's Law.
