Milwaukie Or 97222

I do not support the house bill 2351. I have lived on the Willamette River in Milwaukie for 10 years in the greenway. I do not want more regulations on my rights to boat in the river.

I **have not** had any erosion on my property except during spring runoff when the water flow and levels are much higher than in the summer during boating activities.

I do not want a set up for it to restrict future boating rights for all citizens.

It is a waste of tax payer's financial resources. Enforce the rules we already have.

Sincerely,

Eric Schilling,
