Subject: Clean Energy Jobs Bill
Date: Thursday, March 7, 2019 10:23:39 PM

Why it is important

Anyone who does not live in a hole understands that Climate Change/Global Warming is about to annihilate the human race if it is allowed to continue unabated. While many countries in the world have agreed to do something about, unfortunately, ours has not. I think that it is imperative that we do what ever we can. While the effects of the Clean Energy Jobs Bill will be small on a global scale, it is what we can do. In addition, if it is implemented successfully, it can be a model for other states. Oregon has always been a leader when it comes to the environment and there is no reason that should not continue. Please make sure that the Bill passes and is fully supported so that it can have a successful implementation.
