

What is wrong with you people, and the business community that is backing this bill?

When I was growing up, there were public toilets in parks, and elsewhere. So maybe homeless people will not keep them clean; then, hire some of them to do that. To build and maintain public toilets, use the money you'd spend in court costs, jail costs, etc to imprison those who are guilty of being a mammal with bodily needs and no place to attend to them.

The idea of this bill alone is disgusting and shameful to me.

Shame on you. I cannot help but say, "What would Jesus do?"
