

Dear Representatives and Senators,

It has come to my attention that our state has filed HB 3063 which would remove all personal / philosophical and religious exemptions from vaccinations.

Please, no more vaccine laws or vaccine requirements, including HB 3063. This new bill is going too far. We the people, not the government, should have the ultimate authority in deciding what is best for our health.

Thank you,

Grace Field, voter in Wasco County, mother to 6 children
