

Dear Representative Boshart:

I respectfully submit my opposition to House Bill 2020 for the following reasons:

- o This will not impact the global climate and will specifically target Oregon's population.
- o Rural Oregon will suffer from increased gas prices and higher transportation costs.
- o Farmers will be impacted and extra costs will be passed on to consumers.
- o Residents and businesses are fleeing Oregon all around us.
- o This will cripple our state and hurt our growing economy. We simply cannot afford this!

I left Washington State 3 years ago and returned to our family home in Grants Pass. Times are tough here in So. Oregon.

If this bill passes, I don't think we can afford to live here.

Thank you for reading my opinions and please kill this bill.

Sincerely,

Robyn Hill
Grants Pass, OR
