

Hello Carbon Reducers,

I share this email with Dennis M. Fisher, who has already written you about HB 2020.

I wish to add my support, hope I don't get lost in the duplicate email pile.

We live in Douglas county. HB 2020 will invest NEEDED money in our county. Economic benefits of increased income are especially needed, by our low-income residents.

Please, offer no breaks, in HB 2020, for climate polluters. Please don't roll back existing climate legislation.

Our planet needs all the help we can give, to deal with climate change.

Invest in our Clean Energy Future, please!

Thank you,

Kim Wilbur
