

Dear Legislator,

I am writing to ask for your support for School Social Workers. Two important bills are going to be heard Monday 3/11/19 HB 2441, which clarifies that School Social Workers can implement comprehensive school counseling framework and HB 2940 establishes a pilot program to increase public schools served by school social workers and appropriates 20 million for districts to apply for grants to do this.

School social work services are essential in schools in responding to students who are:

- Impacted by trauma
- Facing housing instability and homelessness
- Dealing with the effects of poverty
- Living in homes with domestic violence
- Struggling with mental health issues
- Supporting marginalized and historically underserved communities
- Implementing systems of change
- Dealing with the impacts of substance abuse

School social workers also have the training and education that makes them uniquely qualified to understand and develop systems that support students and families with the biggest barriers to academic achievement and subsequent life success. All school social workers have explicit education around systemic racism and discrimination, which is a central factor in Oregon's persistently low graduation rates for students of color.

I am a school social worker across the river from Oregon. I have been working in schools for ten years providing help to at-risk students so that they may succeed in the classroom and conquer problems in their everyday lives. I help entire families by providing crisis intervention and referral for families in need; and whereas, social problems such as delinquency, suicide, drug and alcohol addiction and school-related failure are of concern to all, it is fitting that we recognize the important role of school social workers in the lives of children in our schools.

We are urging you to vote **YES** on HB 2441 and HB 2940! These bills will give Oregon's school children the chance to:

- Access mental health services at school
- Connect with resources and agencies that provide support for basic needs, such as housing, food and utilities
- Get connected to resources for domestic violence services
- Get connected to resources for sexually minority youth and families
- Get connected to culturally specific resources and supports
- Referrals and connections to youth and adult substance abuse providers and services

Thank you for your support,

Rachel E. Zaveritnik, LCSW (OR License #L5946)  
School Social Worker (10 years)
