

I strongly OPPOSE HB3063

Here are 20 FACTS you need to know to make an informed decision:

1. Vaccine manufacturers have NO liability (National Childhood Vaccine Injury Act of 1986), so CANNOT be sued for injury from their product and they have no incentive to make their product as safe as possible.
2. Vaccines are not held to the same double blind gold standard of clinical testing as other pharmaceutical drugs because they are considered biological products under the Public Health Federal Food, Drug and Cosmetic Act. They meet the same standards as cosmetics.
3. The per vaccine Federal Excise Tax is used to pay the vaccine injured through the government-created National Vaccine Injury Compensation Program (NVICP). Just over \$4 Billion has been paid to date (through March 2019).
4. Vaccines contain neurotoxins (aluminum and mercury) far exceeding "safe levels" deemed by the EPA.
5. Vaccines contain cancer-causing ingredients, and have never been tested if they cause cancer, infertility or DNA mutation (See section 13.1 of every vaccine package insert).
6. Some vaccines are made from aborted fetal cell lines. (WI-38 and MC5-5 Human Cell Fibroblasts)
7. Vaccines are not 100% effective and a vaccinated person can get the disease they were vaccinated for.
8. A vaccinated person carries the disease they were vaccinated for, "shedding" it, for up to 6 weeks.
9. The concept of herd/community immunity cannot be achieved by vaccines because vaccines are NOT 100% effective. Unlike lifetime immunity afforded by disease, vaccine-induced immunity lasts 2-10 years.
10. Doctors receive financial rewards from insurance companies for having patients fully vaccinated (~\$400 per patient). They are advised NOT to share all the risks or the vaccine package inserts, so 100% informed choices cannot be made in a doctor's office when vaccinating.
11. Vaccine injury is under-reported. VAERS is the only way to officially report a vaccine injury and is tedious with no incentive for a doctor to fill it out.
12. Vaccine mandates (like SB277 and SB792 in CA) literally hand over new customers to pharmaceutical companies, and remove rights to choose what is injected into a person's body.
13. Pharmaceutical companies spend up to 19 times more on advertising than they do on research.
14. Corporate mainstream media gets 70% of their advertising revenue from pharmaceutical companies.

15. Vaccine safety and efficacy research is not conducted by independent researchers and so is biased.

16. The full CDC recommended vaccine schedule has never been tested. Vaccinated children are the human experiment.

17. All vaccines can cause injury or death, and there is no way to tell who will have a reaction.

18. Most doctors receive 30 MINUTES on vaccine education (that they are safe, effective and a must) during their 8 YEARS in medical school.

19. If someone dies from a vaccine, their family will be awarded no more than \$250,000. Most cases of vaccine injury are dismissed because doctors and vaccine manufacturers deny a causation link. The statutory time limit for filing a claim is only 2 years after death and 3 years from the time of vaccine injury.

20. The government plan "Healthy People 2020" has a goal to fully vaccinate all children and adults by 2020.
