Hello,

As someone who enjoys vacationing in Oregon, I think it's imperative to support the Safe Waters Act of 2019. Healthy water is a must for the well being of humans and animals alike.

I understand that timber needs to be harvested, but there needs to be firmer regulations on these practices. Clear cutting and pesticide/herbicide use goes beyond harming aesthetics of the land- it impacts natural processes that are the true reason I travel to Oregon for. My friends and I love to fish and spend time outdoors in the wilderness exploring nature. With that, please support HR 2656.

Respectfully,

Tyler Hoyt
