

Please, understand that safe places to smoke cannabis, is a safe solution for the state, too.  
Finding a solution, is necessary.

I can tell you about needs, and patients, and and medicine... There are those, too.

Regulation.... Only option, really. Soooooooo, roll up sleeves ...let's pass this through. If alcohol is legal, then, so should be cannabis. Ohhhhhhhh, it is legal?  
No, it isn't, really.

We need our legislative members to get on board.

We are asking you to speak for us. We "legalized recreational," soooooooo, it can be illegal to smoke, anywhere, and everywhere?? That's what's happened. You know this. Did you plan it? ???

Then, please fix it.
