

I am a native Oregonian, mother of three and I oppose HB 3063.

As an Oregonian, I want ALL children to have access to education and this bill strips away that right. This bill denies children of ANY education, even online school, if they are missing just \*one\* vaccination. And it is more far reaching than just education. Those who have children that are excluded from school will be potentially forced to leave the workforce, causing lost wages and financial hardships, creating a ripple effect of unknown proportions.

This bill also infringes on religious freedom, something that I take pride in my country for providing. It laughs in the face of those who have fought so hard to protect these freedoms.

There is no "emergency" in Oregon which would justify this kind of forced medical intervention. Healthcare is not one-size fits all. Please protect the right of an education and the religious freedom of your fellow Oregonians.

Respectfully,  
Julia Clark  
Salem, Oregon
