**Date:** Wednesday, March 13, 2019 4:37:38 PM

---

Not only in the Bend area, but everywhere in Oregon, wildlife is at severe risk along our busy roads. Connectivity and safety when crossing roads is key to individual and to species' healthy survival.

Please, I urge you to favorably consider HB 2834-1 which will preserve habitat connectivity for Oregon wildlife and help to reduce vehicle-wildlife collisions.

Thank you for helping to keep Oregon wild.
