

I just found this testimony from the Oregon Dental Association which seems to confirm the rumors that OHA is planning to add HPV and flu shots to the Oregon schedule soon:

The flu and HPV/Gardasil vaccines are widely refused because of the low efficacy and frequent serious adverse reactions.

If you remove vaccine exemptions and the OHA adds these two to the Oregon schedule, there will be a mass exodus of families from our beautiful state.

Please kill HB3063. Do not force risky medical procedures onto our precious children.
