Subject: Support for HB 2020
Date: Wednesday, March 6, 2019 8:50:13 PM

Senator Dembrow, Rep. Power, and Committee members, my family and I fully support HB 2020 and all its economic (and environmental) benefits for Oregon and our families. The time has come to take this important step to move Oregon forward to catch up to the many states that have similar mechanisms in place.

Please work to pass the measure, get others to vote for it, and implement it!

We now live in Fairview, Oregon and just moved here from Rockaway Beach, Oregon after being there several years.

Thank you!
