Subject: Senate Bill 595
Date: Monday, March 18, 2019 4:42:29 PM

Taking money to fund housing for workforce is taking money from the employers who have to pay for their own housing and businesses. This is totally unfair to the people of Oregon because the increased lodging taxes would force us in the industry to raise our price and thus restricting potential guest to pay more for their rooms and suites
I am totally against this bill 595 Do not vote for it
