

Good afternoon,

I am a 15 year Realtor and 5th generation Portlander. I have owned rental properties and have come from a line of privileged families who have benefited from home ownership and the mortgage interest deduction. The wealth gap is too big in Oregon - we need more changes that will help bridge this gap and I believe this bill is one way to do so. My family makes more than \$250,000 so I'll be directly impacted, and I'm still in support of this bill. Those of us who are financially well-to-do need to contribute to the housing crisis and I'm willing to do my part. Please consider passing this bill. Thank you,

Jennifer Lundstrom
