

Good evening,

I am writing in support of HB3075 that seeks to overturn the law slipped in at the last minute without any public input barring double coverage for spouses.

My wife and I have two young daughters, and in our case if we lose the double coverage option, it will cost our family over \$6,000. That is an extreme amount for our family to try and take.

In addition, the double coverage actual saves our district (bend alpine) money. My wife opts out and we have part of that money diverted into our health savings account each month that helps cover our medical bills. Without that money coming in we will be looking at a \$6000 pay cut in one year as we have to make up the difference through our monthly checks. That is just wrong.

This is an unfair burden placed on a small number of families. Please repeal the double coverage elimination and look after the families of this state.

Thank You,

Mike Huff
