

Hi there,

I wanted to share that I'm in support of bill: SB 795. I'm a mother of a Deaf boy and if it weren't for Deaf adults helping make decisions and overseeing programs and the educations of Deaf students I would be at a loss. I'm hearing and only know this experience. To have Deaf adults working within the Department of Human Services would tremendously help bridge the gap between hearing and Deaf people.

Thanks,

Amanda Hvass
