I am contacting you to ask once again, to return this money to us, the ones who paid it. Some of the politicians in Oregon just continue to try and take this from us over and over again. If they were really in touch with the citizens they would know that this kicker is a morale booster for tax payers who feel like we are taxed and taxed again. It makes us feel like we actually get some of our money back. When people continually try to take it, it causes us to feel like it is once again, citizen vs politicians. It is wrong to take this away from us. Please don't do this.
