RE SB 763

Chair Senator Prozanski
Vice Chair Senator Thatcher
Senator Bentz
Senator Fagan
Senator Gelser

Senator Linthicum
Senator Manning

I think there's too many people going to the state hospital already. And people are kept here too long. Some people need medications and some do not. No one should be forced to take them. More focus and effort needs to be on getting and keeping people out. NOT getting more in. Please do not pass SB 763. Focus more on being sure communities can take people back.
