

The idea of disarming police is so obviously misplaced it flies in the face of any rational thinker. The SOLE motivation of this bill is to vilify police and guns FOR NO OTHER REASON THEN POLITICAL GAIN!!

This is a slap in the face of police who risk their lives to protect the public, saying their commitment to our safety is lacking! Portland is already having trouble hiring police officers. This will only make that worse.

The idea, the police are killing so many innocent citizens on Oregon campuses that they need to be disarmed are NOT supported by fact.

Who will pay when some family sues the city or state when the police are unable to protect their loved one who is then injured? The taxpayers.

The idea of leaving the citizens already barely able to defend themselves ALSO NOW WITHOUT police protection for the sake of political points with low info uninformed emotional constituents is more than disgusting.
