**ISSUES DISCUSSED:**

**EFFECT OF AMENDMENT:**

-3 Clarifies language.

**BACKGROUND:**

Current law allows employer to self-insure to meet workers' compensation insurance requirements. These self-insured employers must deposit security with the Director of the Department of Consumer and Business Services that can be accessed to ensure mandatory payments are made. The amount of the security must be sufficient to secure any remaining liability from the period that the employer was self-insured. The security must remain on deposit for five years after the employer ceases to be self-insured. At the end of the five-year period, the director may accept a paid-up policy covering this liability in lieu of any remaining security.

House Bill 3003 allows the Department of Consumer and Business Services to accept a paid-up insurance policy in lieu of a surety bond or other security from a former self-insured employer in the five-year period after the employer is no longer self-insured.

The measure, with the -3 amendment, is supported by the Management-Labor Advisory Committee.
