

Hello:

I am writing to strongly advocate for the passage of HB 2804. This bill will discourage and possibly eliminate puppy mills and the mistreatment of animals in pet stores. There are thousands of wonderful shelter animals that could be adopted from pet stores. These animals need homes. This bill would almost certainly also reduce the over-population of pets since there would be no incentives for breeders to breed large numbers of animals.

Thank you for your support of this humane bill.

Sincerely,

Linda L. Humphrey
