

It is ridiculous to think 16 year olds are old enough to vote. It is ridiculous that 15 year olds are considered old enough to choose abortion and sex change operations. It is even ridiculous that our 18 year olds are allowed to serve their country and likely die as a result.

It is becoming common knowledge that our schools are Democrat indoctrination centers, and that is why the Left wants the voting age lowered. So these KIDS can vote before they might learn they have been fed a bunch of lies. And to pad the Democrat votes.

If our Legislatures allow this travesty to occur and they lower the voting age, they will be responsible for the ruination of our society and country. I can only hope they will be voted out of office.

Margaret Hyland
