Subject: I support SB 927 (Hearing 3/26)

Dear Chair, Vice-Chair, and Committee members:

I am writing in support of Senate Bill 927. This is an important step in protecting our historic resources. It repeals ORS 197.772 and as a result will repeal owner consent. This means that if a significant building is threatened and the owner refuses listing on the National Register of Historic Preservation, the local jurisdiction may conduct a hearing and impose historic resource protections, per Goal 5 procedures, over owner objections.

Please vote yes on SB 927.

Thank you.
