

Please work to pass a strong Clean Energy Jobs Bill: HB 2020. We must do all we can to end global warming and maintain a livable climate. HB 2020 needs to be as effective as possible in order to limit greenhouse gas emissions sufficiently. We need a strong cap on emissions, with no exemptions or exclusions, and no offsets. Emissions should be limited to 20% by 2025, at least 55% by 2035, and 100% by 2050.

Thank you
