

Dear Chair Barker,

Passage of HB 3031 and/or SB 947 will be the death of many small businesses in Oregon. Businesses don't make enough money to pay one employee to do the work and a second employee to stay home. Many Oregon businesses have out of state competitors which operate on a lower cost basis making the Oregon companies less competitive. Many businesses will DIE and others will leave Oregon for a more business friendly state. These are BAD bills and should be stopped.

Sincerely,

Clifford Moeller
