

SB 943 Churches build houses

The real basic question of the SB 943 is who is going to pay the property taxes for them?

501 C 3 property of which Churches fall under is tax except land!

And all of the rest of the Citizens must pay the tab for them to have all that land!

And yes it is "all" now in most cases since the little church on the corner is mostly gone and they are trying to be land barons now. This is true or they would not have the excess land to build a house or several on!

Please bury this Bill back from where it came from OR make them sub divide the property and sell or give it away to put back on the tax rolls!

There is no clear cut way to work out how to make each home pay their share of taxes and keep the Church tax free.

It can and would end up being abused and create a large job for tax assessors to keep ahead of added homes without proper tax notifications.

KEEP THE CHURCH SEPARATE PLEASE !
